Subject: RE: Passaic River RM 10.9: Final Armor Layer Survey Technical Memorandum

Jennifer,

I have forwarded you request to the engineer and expect a response mid next week. We can try to discuss next week after the engineer responds.

John,

Thank you for providing the Armor Layer Survey Technical Memorandum.

EPA has reviewed the memorandum and has the following the comments/requests:

1. The long-term monitoring plan for RM10.9 should include a component to plot and record the settlement data for each of the 4 plates over time until cap elevation has settled to the pre-dredge elevation. Periodic long term measurements should be made until the cap settlement stabilized. Frequency of measurements will be further evaluated upon the CPG's submission of a long-term monitoring plan for RM10.9.

2. Please provide EPA with the raw survey data that is GIS compatible for further review.

Feel free to give me a call or schedule a time to speak if you would like to discuss further – 212-637-4328.

Thanks in advance,

Jennifer LaPoma

Jennifer:

Please find the attached Final Armor Layer Survey Technical Memorandum for the RM 10.9 RA as requested by EPA.

Please feel free to contact me with any questions.
